We have a checking account with US Bank. As of January 2026, our balance was about \$5,000. The main sources of our funds are donations from individuals, churches, and community groups. In the past two years our largest contributions were from Camp Unity Eastside and from M. A., a member of a Church (which has been a host site several times). CUWS has received no financial support from government agencies and few grants from private organizations, although we have begun applications.
